WHY GAS?

EASE OF USE

The portable remote device means there really is no need to leave the sofa. Enjoy complete control with the push of a button. From thermostatic to snooze mode, let downtime feel truly special.

ADJUSTABLE TEMPERATURE

The convenience to choose the temperature whatever the weather. Simply put, you can enjoy the ambience of flickering flames all year round.

5 YEAR WARRANTY

ALL HUNTER AUTHORISED
DEALERS PROVIDE YOU
WITH AN EXTENDED
5 YEAR WARRANTY.

For full warranty specifications
and terms, please visit

EASY TO KEEP CLEAN

No ash, no mess! All you need
is a microfibre cloth and your
new gas stove is good to go.

REALISTIC FLAMES

Nothing beats relishing in the realistic
flames of a fire and our Hunter Gas
Collection provides an exceptional view
to match its wood-burning counterpart.
Our coal or natural log fuel bed
completes the look.

DESIGNED TO LAST

Our gas stoves incorporate the latest
gas fire technology to keep your stove
running at its optimum.

WITH A FLAME PICTURE THAT'S
EQUALLY AS IMPRESSIVE AS THAT OF
ITS WOOD BURNING COUNTERPART,
THE ASPECT 7G STOVE WILL ADD AN
ELEGANT FOCAL POINT TO YOUR HOME.

A beautiful combination of stylish aesthetics
and innovative gas fire technology, the Aspect 7G
is perfect for heating family spaces. With a choice
between a log or coal effect and black
or stainless-steel handle, you can tailor
this model to suit your interior.

INSTALLING YOUR NEW GAS STOVE

CHOOSING GAS IS A CONVENIENT WAY TO RELISH IN THE WARMTH AND THE VIEWS YOUR STOVE BRINGS. WHETHER YOU'RE THE TRADITIONAL WOOD BURNER TYPE OR SEARCHING FOR YOUR FIRST BRAND NEW STOVE ENTIRELY, GOING WITH GAS COULDN'T BE SIMPLER.

WHERE CAN MY GAS STOVE GO?

Good news! Any installation area previously used for a solid fuel fire or stove will probably be deemed suitable for the appliance.

WILL I NEED TO INSTALL AIR VENTS?

No. As the supply gas heat input into the appliance is nominally less than 7kW, no additional air vents are required in the room in which the appliance is situated. (Under the current Health and Safety Executive gas safety and use regulations)

HOW IS MY STOVE CONNECTED TO THE MAINS?

The appliance is supplied with an 8mm Bundy pipe and an 8mm compression elbow to allow easy connection to the mains gas supply and is connected to the burner by a 14mm spanner.

WILL I NEED TO GET MY GAS STOVE SERVICED?

As with any stove, we recommend having an annual service carried out. A GAS SAFE registered fitter using only original Hunter Stoves parts should carry out the servicing.

WHO CAN FIT MY STOVE?

A Gas Safe Registered Installer must fit your new gas stove. This person is responsible for the safe installation of your appliance.

WHERE CAN THE FLUE BE FITTED?

The Hunter Gas freestanding stoves can be flued from either the top or the rear of the stove. The choice is yours!

FEATURES

THE REALISTIC FLAMES OF A NATURAL WOOD BURNER AT THE PUSH OF A BUTTON

WINDING DOWN SHOULDN'T FEEL LIKE HARD WORK, AND A HUNTER GAS STOVE ADDS A SIMPLE SOLUTION

Our Hunter Gas collection mimics natural flames perfectly, providing the mesmerising view a real wood burner brings at the touch of a button.

Every stove comes with a remote control, so you can easily regulate the room temperature to suit your needs and adjust the flame size to create the perfect ambience.

The remote control is also designed to avoid accidental operation, keeping you and your family safe.

Simple programming means you can put the gas stove into snooze mode or set it to turn the fire off automatically.

WITH THE HUNTER GAS COLLECTION, RELAXATION IS EFFORTLESS.
